# Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

## Your City Directory Contains:

**1**

An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

**2**

A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

**3**

A *Classified Business Directory* listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

**4**

A "*Yellow Section*" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

**5**

A *Statistical and Historical Story* of your city; plus miscellaneous other information.

# INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY COMPANY, publishers of Southeastern Directories, (publishers of the Washington Directory since 1957), present to subscribers and the general public, this, the 1962 edition of the Washington City Directory, which also includes Washington Heights, Washington Park and the Rural Route Residents.

Confidence in the growth of Washington's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Washington to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Washington Directory will fulfill its mission as a source of authentic information pertaining to the community.

## Five Major Departments

The five major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department, printed on goldenrod paper, and contains the advertisements of leading manufacturing, business and professional interests of Washington. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Washington, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

II. THE CLASSIFIED BUSINESS DIRECTORY is the second major department, printed on canary paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such, it plays an important part in the daily activities of the commercial, industrial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

III. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, is the third

major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Washington, and the name, official personnel, nature and address of each firm and corporation in the community.

IV. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the fourth major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

V. THE NUMERICAL TELEPHONE DIRECTORY is the fifth major department, printed on blue paper.

#### **Community Publicity**

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Washington and vicinity.

#### **The Washington Out-of-Town City Directory Library**

Through the courtesy of the publishers of the Washington City Directory, a Directory Library is maintained in the offices of the Washington Chamber of Commerce, for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in cities and towns throughout the U. S., Canada and Puerto Rico by members of the Association of North American Directory Publishers.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

### STORY OF THE CITY OF WASHINGTON, N. C.

#### The City Today

The original Washington was founded on the 337 acres granted to Christopher Dudley in 1726. In 1771 James Bonner, then owner of the land, founded a town called "Forks of the Tar River," which by 1776 was known as Washington, the first town in the United States so named.

Washington was incorporated by the General Assembly at Hillsboro in 1782. In 1784 the assembly established a trading post at Washington "for the speedy decision of mercantile transactions with foreigners and transient persons."

The official 1960 census of Washington was 9,939 population, and the present population is estimated at 12,000. This growth is due to new industrial plants brought into the area in the last few years and real estate figures on new homes constructed. On the basis of new businesses in the city, there is every reason to believe that the city will continue to grow steadily in the future.

Washington is in the western part of Beaufort County in the east-central portion of the Coastal Plains section of North Carolina. Located on the navigable Tar and Pamlico rivers, it is 135 miles south of Norfolk, Virginia, and 105 miles east

of Raleigh, North Carolina. It is on U. S. Highways 17 and 264, and on three state highways and two railroads.

Beaufort County has 290,816 acres of farmland averaging 40 acres per farm, with 3,000 farms, 2,863 of which are commercial farms. Main agricultural products are tobacco, cotton, corn, soy beans, potatoes, livestock, oats, peanuts, and lespe-deza.

Existing industries consist of a yarn spinning plant, a shirt manufacturing plant, a dressmaking plant, grain elevators, lumber and planing mills, mattress manufacturing plants, a furniture plant, a manufacturer of automobile truck bodies, boat builders and meat processors. These industries draw on raw materials available locally and in surrounding area. The Washington Tobacco Market serves a wide area. There are 58 industries in the county employing 4,111 workers.

### Service Institutions

Washington has an unlimited supply of electric power, furnished by the City of Washington Utilities Commission. Locally generated power is supplemented by purchase power from the Virginia Electric and Power Company. Washington's new Jordan water filtration plant, among the most modern in the state, filters 2,750,000 gallons per day, and the average daily usage is 1,000,000 gallons. The new sewage disposal plant has clarifiers sufficient to handle double the present requirements, with capacity of 2½ million gallons per day to serve up to 48,000 population. The extensive facilities of the Tidewater Natural Gas Company provide gas to customers on existing city mains. Several local bottled gas companies render service within the community at reasonable rates. Natural gas is available.

The city is served by two railroads, the Norfolk Southern Railway Company and the Atlantic Coast Line Railroad Co. Both rail terminals are located near the center of the town. Washington is served by four bus lines at the Union Bus Terminal, and numerous national trucking lines. Bay boats and barges provide cheap transportation for bulky cargoes on the Pamlico River with its 12-foot channel connecting the city directly with the Inland Waterway 30 miles east of the City. The nearest commercial airport is at New Bern, 35 miles south. Washington's airport is used by private land and sea planes. The local airport is Government-built and has concrete runways 150 feet wide and 5,000 feet long. Flying charter service is available.

Washington's educational facilities consist of one elementary and one junior-senior high school with 4,232 students. Nearby colleges are East Carolina College, at Greenville, Atlantic Christian College at Wilson and Chowan Junior College at Murfreesboro.

New homes and residential developments constantly add to the beauty of Washington's residential areas. The people are naturally friendly and hospitable, which adds to the charm of this historic city. Its natural advantages of being near the water attract people to Washington for the numerous water sports, and the hotels, motels and tourist homes cater to the

fisherman, hunter, water skiing enthusiast, yachtman, and all interested in the advantages which the big Pamlico River has to offer.

Among the leading civic, fraternal, and social organizations are the following; Washington Shrine Club, Loyal Order of Moose, Lions Club, Elks Club, Woman's Club, Veterans of Foreign Wars, Garden Clubs, Masonic Lodges, Junior Chamber of Commerce, Book Clubs, American Legion, Kiwanis Club, Rotary Club, Degree of Pocahontas, Toastmaster Club and Order of Redmen, Chamber of Commerce.

#### **Industrial Situation**

Living conditions in Washington are good, and available industrial labor in the city and county is already housed. Labor relations are particularly good in industrial establishments, and there is an adequate supply of available labor in the area.

#### **Financial Situation**

The bonded debt of the city is \$2,137,000. The city council awards contracts to the lowest bidder. The city has never faltered in payment of any bond or obligation, and is in a sound financial condition. The city is constantly expanding its water and sewer facilities to meet the growth and expansion of the city. Any developments or expansions in the immediate future will be done from current revenue rather than bond issues.

#### **Retail Trade**

Washington is a retail and wholesale trading center. The retail area covers a radius of around 50 miles, serving a population of 300,000. The wholesale area has a radius of around 100 miles and covers a population of 1,000,000. Almost every type of retail store will be found in Washington's modern shopping section, and it is the natural hub of market activities for six surrounding counties. The Washington Daily News, published each afternoon except Sunday, has an average daily circulation of 5,004. The retail trade area handles the highest quality merchandise.

#### **Wholesale Trade**

Among leading wholesale dealers here are those dealing with clothing and hardware.

#### **Civics and Welfare**

Washington is currently served by one new hospital with 125 beds. Additional rooms are to be added to the new Beaufort County Hospital, which is entirely air conditioned. There are three clinics in the city. City and county health departments have active programs. Amusements consist of a modern motion-picture theatre, a drive-in theatre, bowling alley, a city-owned recreation center, a public air conditioned library with 20,000 volumes, public parks, two full time radio stations and a locally-owned NBC TV station. CBS Television is received strongly from a station 20 miles away.

The Washington Yacht and Country Club has an excellent nine-hole golf course and yacht basin with docking facilities.

There are public tennis courts. Swimming and fishing are excellent in the Pamlico River and the country club has a swimming pool of the finest and most modern construction. Boating, sailing and hunting are excellent in and near Washington. The nearest beach on the Atlantic Ocean is 70 miles away.

The Chamber of Commerce sponsors an annual Christmas parade, as well as special events throughout the year.

#### City As A Center

Located on Ocean Highway U. S. 17 between Maine and Florida, Washington is of interest historically to many tourists, being surrounded by historical points of interest regarding the first settlers of America.

#### Advantages and Claims

The advantages of Washington as a recreation center are unexcelled, due to its water sports facilities and its proximity to the Atlantic Ocean. Industry seeking sites for expansion will find Washington an excellent location due to its modern facilities, available sites, modern climate, good labor relations and high quality of large labor supply.

#### City As A Service Center

The Washington Chamber of Commerce, 131 East Main Street, P. O. Box 665, telephone WHitney 6-2531, is prepared to give complete information on any phase of Washington's facilities to interested parties.

# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seeker, rather than on the number of copies sold.
8. To co-operate with approved organization and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake Directories.

"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r," before an address stands for "Resident." That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

*Out Of Sight!*

*Out Of Mind!*

*Out of Business*

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

# Typical Questions

Your City Directory  
Will Answer

---

## ABOUT AN INDIVIDUAL

How does he spell his name?  
What is his middle initial?  
Is he married? What is his wife's name?  
Where does he live?  
Does he own his home or rent?  
Has he a telephone?  
Who are his neighbors?  
What does he do for a living?  
Where does he work?  
Is he the "head of the house" or a resident?  
Does he own a business? Is he a member or officer?  
Who else is in the same business or profession?  
Is the woman single, married or a widow?

## ABOUT YOUR CITY

What is the city's history?  
What are the latest population figures?  
What is the latest statistical and general civic information?

Do your employers furnish you with the latest edition  
of the City Directory?

You need it at your elbow at all times, to protect your company from  
forgery and bad-check artists. A few questions, checked against City Direc-  
tory information, will trip them at once. Intelligent use of the City Direc-  
tory for this purpose has saved thousands of dollars and helped make some  
cities "too sharp" for bad-check "operators."

## **Out of Sight - Out of Mind**

### **★ Out of Business ★**

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.

**INSIST ON BEING WELL REPRESENTED IN ITS PAGES.**

## **VITAL INFORMATION AT YOUR FINGER-TIPS**

★ Tens of thousands of people who were formerly strangers to the City Directory are consulting it on questions of citizenship, employment, sources of supply, communications, etc. Also, Directory usage is up among regular subscribers.

### EXPLANATION

Wives names are listed with husbands, the name of the wife is shown in parenthesis following the husband's as follows: Gregory Richd M (Mary L).

In case of a widow by death, wherever possible the name of the deceased husband is shown in parenthesis as follows: Gregory Mary L (wid Richd M).

The occupation and place of employment is listed as follows: Gregory Richd M (Mary L) slsmn Starr Clothing Co.

Names in heavy type denote advertisers in this City Directory.

Ownership or co-ownership of a firm is indicated by showing the individual's name in parenthesis following the firm name, as follows: Carson Grocery Co (Geo B and Paul N Carson).

A firm name enclosed by parenthesis indicates ownership or co-ownership by the individual whose name precedes, as follows: Carson Geo B (Carson Grocery Co).

The head of the house is indicated by h preceding the street address; other members of the family and roomers are indicated by r preceding the street address.

The word street is not used in addresses. Where a designation av, clr, ter, etc., does not appear, the designation st is understood.

## CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will tip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Do your employers furnish you with the latest edition  
 of the City Directory?

You need it at your elbow at all times, to protect your company from  
 forgers and bad-check artists. A few questions, checked against the City Direc-  
 tory information, will tip them at once. Intelligent use of the City Direc-  
 tory for this purpose has saved thousands of dollars and helped make some  
 "too sharp" for bad-check operators.

## CASHIERS!

## TELLERS!

## CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and ped-dle artists. A few questions, checked against City Directory information will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for ped-check operators.

## CASHIERS!

## TELLERS!

## CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check operators.

## CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition

of the City Directory?  
You need it at your elbow at all times, to protect your company from  
forgery and bad-check artists. A few questions, checked against City Direc-  
tory information, will trip them at once. Intelligent use of the City Direc-  
tory for this purpose has saved thousands of dollars and helped make some  
cities "too sharp" for bad-check "operators."

**CITY DIRECTORY

**HILL'S****WASHINGTON**

**Directory of Householders, Occupants of Office  
Buildings and Other Business Places, Including  
a Complete Street and Avenue Guide**

**Including Washington Heights and Washington Park**

**1962**

Copyright, 1962, by Hill Directory Company

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some members of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

The word street is not used in addresses. Where a designation av, cir, ter, etc., does not appear, the designation st is understood.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers and have no other significance.

This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

Do your employers furnish you with the latest edition

of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CITY DIRECTORY ADVERTISING  
IS *National* ADVERTISING!

## Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore  $1000 \times 3\frac{1}{2} \times 305 = 1,067,500$ .

## A STATEMENT OF ADVERTISING PRINCIPLES

1. **Good Advertising** — aims to inform the consumer and help him to buy more intelligently.
2. **Good Advertising** — tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which can not be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. **Good Advertising** — conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. **Good Advertising** — recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.
